<p>You are Signed Up!</p>	<p>Hi <photographer>, Thanks for signing up. You're account is up and running so you can begin uploading photos right away. To prepare your photos for Shrelp size your image to at least 11" on the short side. Remember to increase the size by no more than 10% at a time. Then run the attached action in Photoshop. You can then sign into your account and select upload from the left hand column.</p> <p>The way it works is you upload your photos and we review it. We approve, deny or suggest an action to make it sellable. From there you set your base price for each photo. You have 3 options for the photos. Private Stock, Custom Sale, and Stock. Private Stock means you control who sees the image. You send a link to the photo to art buyers you want to license it to. Custom Sale is the option lets the public browse your photos freely but you approve each sale individually. This is for riders that have sponsors that need to be considered in a sale. (ie a rider is sponsored by DC shoes and sketchers wants to use the photo). This process takes longer for the art buyer by requiring your approval first. Stock is the fastest sale process at Shrelp. Art buyers prefer this type because they can be downloading the high res file within minutes after they pay for it.</p> <p>Thank you,</p>
<p>Follow Up Email (2 Weeks)</p>	<p>Hey <photographer>, We just wanted to check in and see how your first uploads are coming</p>

	<p>along with Shrelp. If you have any questions please do not hesitate to email us at info@shrelp.com or email me directly at info@shrelp.com. If you haven't visited the site in a while come take a look. http://shrelp.com. We have been working hard and making changes to the site.</p> <p>You retain all copyrights to your images. We do not sell any royalty free licensing either. Unlike some of the other stock agencies your photos are still available for licensing later. What makes us different than other companies is we let you set your prices. It's your work, you tell us how much you would like to get paid for it. You set the base price and we base different licensing prices off of that price you set. There is no minimum or maximum to upload nor does the image have to be of anyone famous. If it's a good shot, we'll list it.</p> <p>Thank you,</p>
Found you on the internet	<p>Hey <photographer>, I found your photos online through google and fineartamerica.com. I was wondering if you are looking for an alternative for selling your skateboard photographs. I saw your photos and I know that they would sell very well. I am speaking of Shrelp.com. It is a website dedicated to photographers selling their images. Not just as fine art pieces but also for advertising. Our library is still growing so it may look a little sparse at the moment but it is a company owned and operated by skateboarders. No corporations, no get rich quick schemes, no bullshit.</p>

	<p>We give the photographer control of their prices. If that is too much for you to handle we also offer our recommended market pricing based on current market trends. If you have any questions please do not hesitate to contact me at info@shrelp.com</p> <p>Thank you</p>
